

Vowel Teams

(Tune: Did You Ever See a Lassie?)

Cherry Carl

When two vowels are found together, together, together,

When two vowels are found together,

They make quite a team.

The first one is talking

While they go a-walking.

When two vowels are found together,

There's only one sound.

When two vowels are found together, together, together,

When two vowels are found together,

Which one gets to talk?

It's usually the first one

The second says nothing.

When two vowels are found together,

There's only one sound.
